

CSK "COMPACT SCALE" SERIES

Extremely versatile compact scale, featured by a mobile weight indicator, which, thanks to the extendable cable, can be placed in a more suitable position for weighing bulky packages or objects. Its sturdiness and ease of use allow it to be used in various environments, from the office to the kitchen; ideal for the agrifood and industrial fields.

MAIN FEATURES

- Mobile weight indicator, very useful for weighing bulky packs and objects; thanks to its extendable cable (up to about 1 m long) it is possible to move the indicator in the desired position and work with ease.
- LCD 5-digit display, with blue backlighting and functional icons.
- Simplified three key mechanical keypad, easy and immediate to use.
- Structure in reinforced, sturdy, and resistant plastic.
- Extremely quick magnet system for hooking and unhooking the indicator.
- Plate dimensions 219x189 mm.
- Innovative design.
- On/Off through dedicated key.
- Power supply through 3 AAA batteries.

FUNCTIONS (through dedicated key)

- Semiautomatic tare
- Hold
- On/Off
