

FR SERIES "BENCH/FLOOR" PLATFORM

Small and medium sized electronic platforms with off-center approved load cell. Stainless steel plate connectable to any weight indicator for load cells.

MAIN FEATURES

- Functions with an aluminium "single point" OIML R60 approved load cell, with protection against dust and moisture according to IP65 standards (350 Ohm input resistance).
- Structure with oven-fire painted steel tubulars, adjustable resting feet, and level.
- Fitted with satined AISI304 stainless steel load surface.
- Up to 15 Vdc power supply.
- Screened 3m connection cable with connectors for connection to the indicator.
